

What is the P.A.T.?

The job of leadership in public school systems is very complex and leaders might encounter difficult situations such as issues with personnel, parents, communities or school boards. MASA wants to provide our members with as much assistance as possible. Therefore, in addition to the MASA legal support services, we have created the Professional Assistance Team (P.A.T.).

The Professional Assistance Team is made up of five individuals who have a wealth of experience in operating schools. The P.A.T. will use their experience to help their colleagues when they need consultation and/or advice if they run into a difficult situation. Each member has promised to treat every contact with confidentiality. The only case in which information may be shared is in the event that a situation is complex enough that a member may require legal assistance, and will be directed to the MASA Executive Director.

MASA members are encouraged to contact any member of the P.A.T. directly for assistance or expertise!

The mission of the MASA Foundation is to enhance the leadership development of education administrators, to encourage and support individuals in careers in teaching or educational administration, to enhance the role and image of educational administrators, and to conduct research and provide information to policymakers and public at large. We know district administrators today often face difficult people, daunting situations and tough decisions with limited resources for effective support and coaching. We believe the P.A.T program directly supports our mission of leadership development and individual support by meeting the immediate need of our MASA members to confidentially discuss issues, seek advice, and receive valuable coaching from experienced and trusted MASA colleagues. The MASA Foundation is proud to sponsor the P.A.T. program and hopes MASA members will take advantage of this resource whenever the need arises.
